OPEN RAN

Aleksandar Đurović
Lead Engineer for RAN development

Agenda

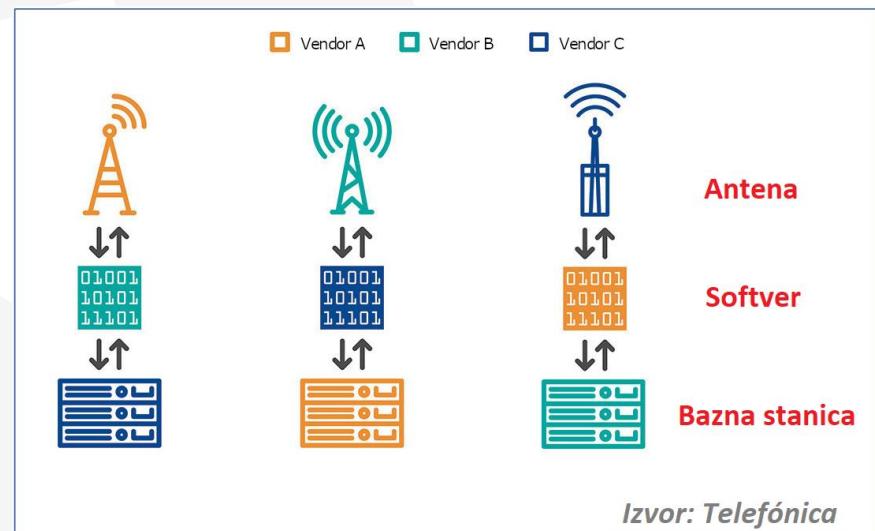

- ORAN definicija i terminologija
- ORAN razvoj
- TIP i O-RAN Alliance
- 7.2x funkcionalna podela
- ORAN arhitektura
- ORAN u praksi - mogućnosti i izazovi

ORAN definicija

- Disagregacija RAN hardvera i softvera korišćenjem otvorenih interfejsa.

Ključni pojmovi:

- **Disagregacija** = razdvajanje hardvera i softvera
- **Interoperabilnost** = otvoreni interfejsi
- **Diversifikacija** ≠ vendor lock-in
- **Inteligencija** = RIC
- **Performantnost** = Cloud + DevOps

ORAN terminologija

Open RAN
ili
ORAN

Predstavlja disagregaciju hardvera i softvera u radio pristupnim mrežama kreiranjem otvorenih interfejsa između njih

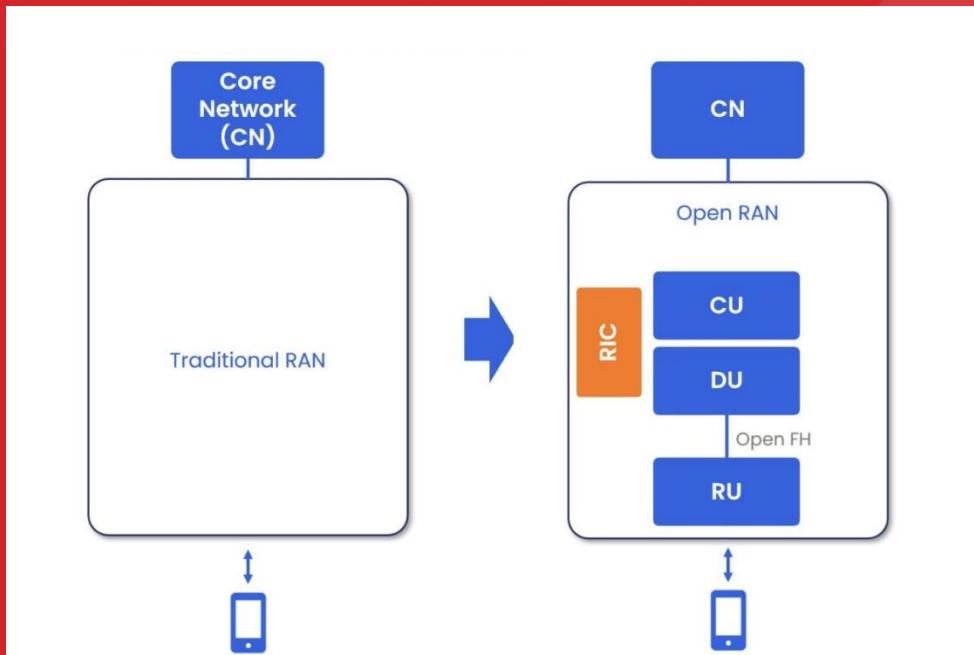

OpenRAN

Može se odnositi na razvojnu grupu u okviru TIP-a (Telecom Infra Project) ili koristiti kao hastag (#OpenRAN) na društvenim mrežama

O-RAN
ili
oRAN

Podrazumeva O-RAN alijansu, jednu od dve vodeće organizacije za razvoj i promociju ORAN-a

ORAN razvoj

vRAN vs ORAN

| Komponenta | vRAN | ORAN |
|------------|-------------------|----------|
| Hardver | Proprietary /COTS | COTS |
| Softver | VNF/CNF | VNF/CNF |
| Interfejsi | Zatvoreni | Otvoreni |

The **OpenRAN Project Group** is an initiative to define and build 2G, 3G, 4G, and 5G RAN solutions based on general-purpose vendor-neutral hardware, open interfaces and software.

Telecom Infra Project

| TIP Project Groups | | |
|-----------------------|--|-------------------------------------|
| Access Projects | Transport Projects | Core & Services Projects |
| CrowdCell | Millimeter Wave (mmWave) Networks | Edge Application Developer |
| OpenCellular | Non-Terrestrial Connectivity Solutions | End-to-End Network Slicing (E2E-NS) |
| OpenRAN | Open Box Microwave | |
| OpenRAN 5G NR | Open Optical Packet Transport | |
| vRAN Fronthaul | | |
| Solutions Integration | | |
| Wi-Fi | | |

Startups – TEAC

TIP Community Labs

PlugFest

Graduated Projects

ORAN Alliance

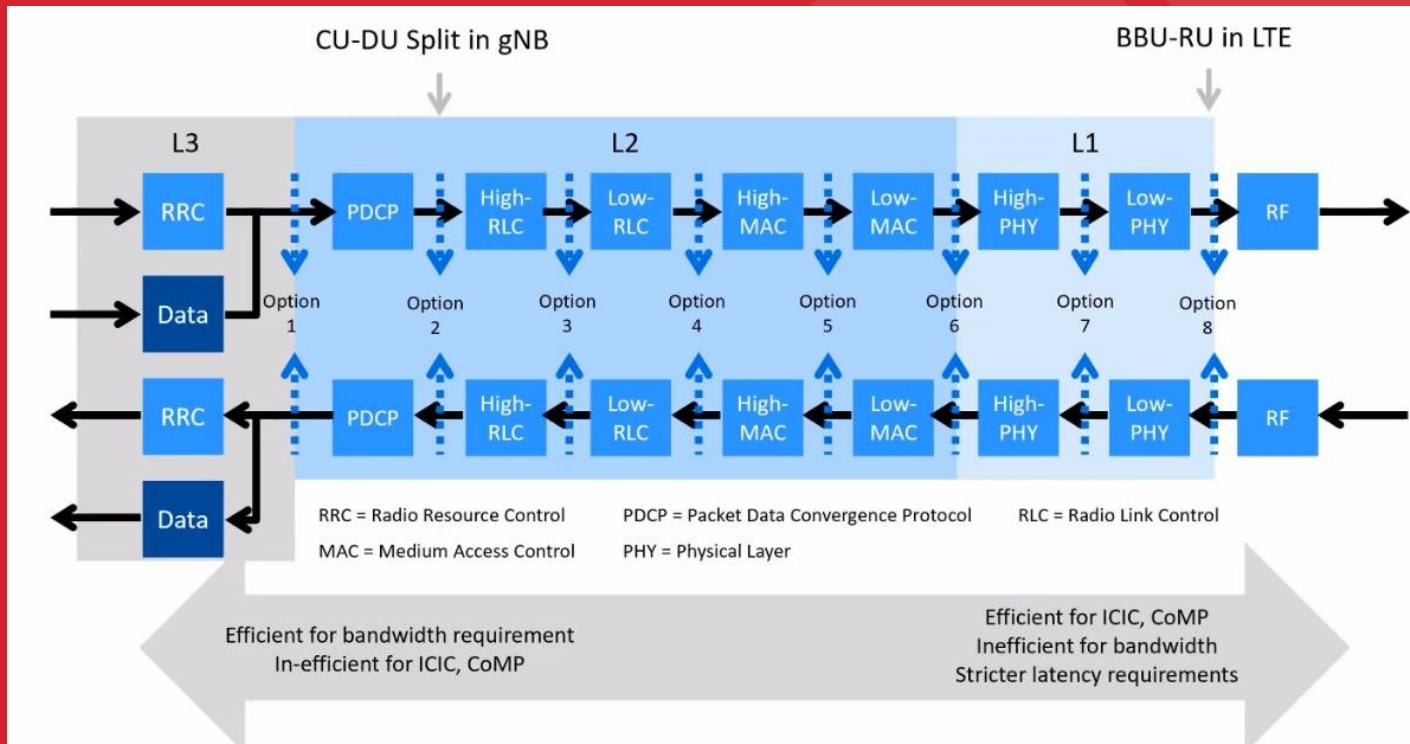

XRAN FORUM + C-RAN ALLIANCE = O-RAN ALLIANCE

| | |
|---------------------|---|
| Work Group 1 | <ul style="list-style-type: none">Focuses on studying use cases and overall architecture. |
| Work Group 2 | <ul style="list-style-type: none">Focus on optimization and automation of the RAN Radio Resource Management, or RRM, using the RAN Intelligent Controller, or RIC. |
| Work Group 3 | |
| Work Group 4 | <ul style="list-style-type: none">Focus on open interfaces for achieving interoperability between different RAN hardware and software vendors. |
| Work Group 5 | |
| Work Group 6 | <ul style="list-style-type: none">Focus on commoditization, virtualization and modularization of RAN hardware and software. |
| Work Group 7 | |
| Work Group 8 | |
| Work Group 9 | <ul style="list-style-type: none">Focuses on the new open transport network based on new architectures and end-user service requirements for fronthaul, midhaul and backhaul, collectively known as X-haul. |

ORAN u praksi

| Servis provajder | Hardverske i softverske kompanije |
|--|---|
| Rakuten Mobile | Nokia, AirSpan, NEC, MTI, Axiostar, Cisco, Intel, OpenStack |
| Dish Network | Mavenir, Axiostar, MTI, Fujitsu, Dell, Intel, Cisco, AWS |
| 1&1 | Rakuten Symphony, NEC, Mavenir, Cisco, Sercomm |
| IpT (Telefónica, Facebook, IDB Invest i CAF) | PW, Mavenir, Axiostar, Intel, SuperMicro, Xilinx, Gigatera, AWS |
| NTT DoCoMo | Fujitsu, NEC, Samsung, Nokia |
| Vodafone | Parallel Wireless, SuperMicro, Vmware, HP, Comba Telecom |
| Deutsche Telekom | Mavenir, Dell, NEC, Fujitsu, Samsung |

ORAN izazovi i mogućnosti

O&M KPIs Bezbednost

Integracija Testiranje

Troubleshooting

Capex/Opex Skalabilnost

Fleksibilnost Diversifikacija

Vendor lock-in Future-proof
